

# Adapters

## A system's approach saves money

Improve your bottom line with a flexible and easy-to-use chuck and adapter system. An inexpensive alternative to costly (and heavy) chucks, a Converttech Chuck and Adapter system is flexible and cost-effective. Acting like expanding chucks, Converttech Adapters can be changed quickly to reduce reset time and increase productivity. Available in a large variety of styles and sizes (up to 150" face length) Converttech Adapters are ideal for situations which require frequent chuck changes. Their lighter weight is also an effective means to reduce workplace injuries.

### Adapters:

- Diameters to 16"
- Face lengths to 150"
- Mechanical and Pneumatic designs
- Adapters for all brands of shafts
- Core stops available
- Different designs to fit every budget and application
