

# Pneumatic Leaf

## Expanding Shaft

### Uniform expansion reduces waste and saves cores

Advanced integration of high quality materials ensures Converttech's Leaf shafts grip firmly and expand precisely. Anodized aluminum leaves expand consistently along the entire length of the Leaf shaft assuring a firm grip and precision control of roll concentricity. Well suited for use with thin-walled paper, steel, plastic, or fiber cores Converttech's Pneumatic leaf shaft is available in core diameters from 1 inch to 6 inches and face lengths up to 150 inches.

### Pneumatic Leaf Shafts:

- 1" to 16" diameters (other diameters available)
- Face lengths to 150"
- Fixed leaves available
- Leaves assure uniform expansion and prevent damage to thin-walled cores
