

High Torque Chuck

Pneumatic/Mechanical Chuck

Perfect centering at higher weights

High-speed printing, sheeting applications, and laminating on zero speed or unwind flying splicers (and other shaftless rewind and unwind applications) with higher torque requirements can still produce perfect centering with a Converttech Pneumatic/mechanical high torque chuck. Available from 3 inches to 12 inch diameters in either cantilever or flange type mountings Converttech Pneumatic/mechanical high torque chucks feature an air-activated piston which mechanically expands and contracts the steel lugs.

Pneumatic/Mechanical High Torque Chucks:

- 3" to 12" diameters
- Adapters available
- For all shaftless unwinds and rewinds
- Highest torque capacity
- Highest weight bearing capacity
- Concentric expansion
