

# Delivered Fast

**Up to 150" wide  
and 16" diameter  
we have your shaft**

With speedy lead times of just a few weeks, we can provide you with precision engineered wide web shafts, mechanical and pneumatic chucks, and an entire line of accessories and parts faster than anyone else.

*Since 1978, Convertech, Inc. has been delivering shafts faster than any other manufacturer in the converting and printing industry. By simplifying and redesigning our shafts, we have created an entire line of wide and narrow web shafts designed specifically for your demanding applications. And best of all, delivery time is still just a few weeks.*

## Why buy Converttech?

### 1 We deliver FAST

so you can deliver faster. When time is your bottom line every minute counts. We know you can't afford to wait 16 weeks for a shaft or chuck; we've streamlined our process to ensure you have what you need in just a few weeks.

### 2 Quality from the start

means our shafts and chucks make your products better and your customers happy. We've re-engineered many traditional shaft and chuck designs to increase quality and have created an easy-to-use and easy-to-repair line of products.

### 3 We're here for you

Call, email, fax, or quote online; we're friendly and here to help. We know you need fast, friendly service and we will always be ready with a solution and a smile. We aren't happy unless you're happy!

Call us today to find out how our high quality can be your best quality

## A full line of expanding shafts and chucks for wide and narrow web

### Mechanical and Pneumatic Expanding Shafts

Converttech air and mechanical shafts are available in wide and narrow web lengths. Precision-engineered designs ensure our indestructible, providing the best shaft torque capacity

- Our Easy-to-use QuickChange™ bladder cartridge system can reduce air-shaft repair time to only ten minutes
  - No special tools are required for repair
  - Simple and easy-to-find parts ease repairs
  - Highly accurate tension control ensures perfect rolls
  - Positive, strong, and even core locking prevents slip and ensures perfect concentricity every time
  - No excessive core damage due to reaming
  - Durable and long-lasting construction ensures maximum uptime
- Specialty Shafts are also available in lightweight aluminum and carbon fiber.

### Expanding Shafts

in wide and narrow web expanding shafts are virtually for all applications.

### Air-Roll-Lock Differential Shafts

No slip, no wobble, and no core dusting. Our air-roll-lock shafts feature an effective and unique GlideLock™ clutched roller system which prevents core damage and allows multiple width cores on the same shaft. Available in 3" and 6" diameters for all core types. Cleanroom version available.

### Chucks & Adapters

We also offer a complete line of accessories including rotary unions, core spacers, and button valves.

A systems approach; use adapters for a less expensive and easy solution your customers will appreciate

Converttech Chucks are available in 3" to 12" diameters and are made to take the heat. They are manufactured to fit your machines in any diameter, size and configuration you need with the quality and price you expect.

Up to 150" wide and 16" diameter for wide web
